

Notes:

MUTCD R9-6: One signpost with two signs (one facing west, one facing east)

Existing sidewalk could be widened from 8' to 10' if replaced in the future. Due to low bicycle and pedestrian traffic, replacing the sidewalk is not currently a priority. Shared use sidepaths may range from 8-12'. 8' is appropriate where there are sidepaths on both sides of the road, as is the case on this section of Florida Avenue.

- Legend:
- Existing sidewalks
 - Existing buildings
 - Crosswalks
 - Stoplines
 - New road edge
 - New lane lines (yellow)
 - New lane lines (white)
 - New sidewalks
 - Sign
 - Landscaped area

1" = 50'
