

## Wind Turbine Update

July 20, 2010

M. Johnston

- Climate Action Plan includes commitment to build at least one 1.5MW wind turbine in 2011.
- Purchasing is now updating the draft RFP to reflect public-private partnership options
- Can go to BOT in November 2010 at the earliest
- Facilities & Services is organizing public information sessions in conjunction with the release of the RFP, in Urbana and on campus
- Facilities & Services is working with community to address concerns of residents
- Students for Environmental Concerns (SECS) are continuing to strongly advocate for building the turbine, and they are a resource for this program
