## News of the Week

### [Emory U, Georgia Tech & Spelman College Lead Regional Center for Expertise on Sustainability](#)

Emory University, Georgia Institute of Technology and Spelman College will lead the newly designated regional sustainability network, RCE Greater Atlanta. Seven sustainable development goals were deemed to be priority for the Greater Atlanta region. Designated by the United Nations University, the Regional Centers of Expertise (RCE) on Education for Sustainable Development are networks of multidisciplinary stakeholders committed to implementing the U.N. Sustainable Development Goals locally.

## Opportunities

### [Call for Submissions: AASHE Sustainability Awards With New Category](#)

The annual AASHE Sustainability Awards provide global recognition to the individuals and organizations leading the higher education sustainability movement. By raising the visibility of high-impact sustainability projects, pioneering research and outstanding leadership, the awards help to disseminate innovations and inspire progress toward environmental, social and economic health. New this year is the Lifetime Achievement Award. Submissions and nominations are due by May 11 to be considered for an award.

### [ISCN Sustainable Campus Excellence Awards: 2018 Call for Submissions](#)

The International Sustainable Campus Network invites submissions for sustainable campus projects that demonstrate leadership, creativity, effectiveness and outstanding performance in the areas of building and innovative infrastructure, campus planning and management systems, innovative collaboration and student leadership.

### [NACUBO Excellence in Sustainability Award](#)

The National Association of College and University Business Officers (NACUBO) is accepting nominations for their Excellence in Sustainability Award. This award recognizes institutions that have demonstrated excellence and innovation in finance, facilities, operations, environment, community and climate. Nominations for this award close on March 9.

### [Early Childhood Education Programming and Pathways to Stewardship and Kinship Model at Fleming College](#)

This workshop, held at Fleming College on June 8, will focus on experiential learning in the natural environment, including tools, practical examples and case studies regarding the Pathways to Stewardship & Kinship Framework and Fleming College's Eco-Mentorship model. These programs focus on delivering early childhood education programming with a focus on sustainability. The deadline to register for this workshop is May 8. Fleming College is one of [13 regional AASHE Centers for Sustainability Across the Curriculum](#).

### [Call for Paper Contributions: The Role of Sustainability in Universities](#)

The International Society for Intercommunication of New Ideas invites paper contributions that offer critical reflections on the role of universities in sustainability and the role of sustainability in universities. Select papers may be presented at the thirteenth international conference of the International Society for the

Intercommunication of New Ideas (ISINI) taking place at the WSB University in Wroclaw, Poland from Aug. 29-30. The deadline for a paper abstract is May 1.

### [The Solvable Problem Challenge](#)

PYXERA Global invites submissions for solvable problems, defined as relatable, widely acknowledged problems with solid evidence that they can be solved. One idea will be selected to become a featured track at the Global Engagement Forum: Live in October 2018, a two-day event seeking to develop cross-sector concepts that address urgent, yet solvable problems within the United Nations Global Goals. The deadline for submission is Feb. 28.

## New Resources

### [New Issue: International Journal of Sustainability in Higher Education](#)

The latest issue contains articles about implementing sustainable development at the university level, measuring student performance on learning outcomes, a case study on mainstreaming sustainability into campus life, and three separate articles related to engineering students and sustainability.
