

# Solar Farm

*The Solar Farm strengthens the university's commitment to sustainability and helps meet the targets set by the Illinois Climate Action Plan (iCAP) by using renewable sources of energy for campus electrical needs.*

All of the electricity generated by the Solar Farm will be used by the Urbana campus. The solar farm will be one of the largest university-owned photovoltaic arrays in the country.

#### **LOCATION:**

This site is on 20.8 acres, located along the south side of Windsor Road between First Street and the railroad tracks, to the west of the existing pond.

#### **POWER:**

5.87 MWp

Estimated 7.86 million (kWh) in its first year

2 percent of electricity for campus based on FY15 projections

Planned Construction:  
Spring 2015 - Fall 2015
