

**Permission to Restore Low Mow Area at Orchard Downs Housing Facility**

The **Housing Division of the University of Illinois**, in cooperation with **Facilities and Services**, give permission to "**From the Ground Up - Students for Environmental Concerns**" to use the +/- 3.5 acres located to the southeast of 2111 Hazelwood Drive, to restore into a meadow, for the term of 4 years beginning 10/2/2019 and ending 10/2/2023.

This agreement may be renewed with the approval of all parties at the end of the agreement period. All questions about the restored site, its nature, risks of hazard, have been discussed with the organization president to my satisfaction. This agreement reflects an entirely voluntary commitment between the parties and may be modified or dissolved as is deemed necessary.

As the responsible parties for this location, we agree to notify the organization of any change in development or use 60 days prior to the change in status.
