

Thank you for your commitment to sustainability at the University of Illinois at Urbana-Champaign. One of the requirements listed in the Terms and Conditions of the funding agreement for your project is the timely submission of a Final Project Report.

Please be as accurate and detailed as possible in describing the project (including success and challenges in meeting the initial goals of the project). Not fully meeting your project's goals will not disqualify you from making future funding requests as long as your reports are as complete and accurate as possible.

NOTE: This document will be shared publicly on our SSC iCAP portal so that others can learn from your project.

If you have questions, please contact the Student Sustainability Committee at Sustainability-Committee@illinois.edu.

Final Project Report

(4)

^{1.} Date of this final project report submission

* 🗀)

10-5-2025

2. Name of project exactly as it was listed in your award letter *

Foreign Languages Building Garden Renovation

3. Date (or semester/year) of original award letter * 🖽

May 1, 2020

^{4.} Expiration date of award as listed on original award letter or approved scope change letter - whichever is more recent * 🖫

original May 2023, revised Summer 2024

\$20,000

6. What is your project's 6 digit fund account number created for this project and to which the SSC allocation was transferred?

Please ask your project's financial contact for this information if unknown.

project fund: 304401, funds TRANSF FROM 1-303692 TO 1-304401 on 2/1/21

7. How much (in dollars) of your award (including previous approved budget increases) is remaining? ★ □

\$9,814.86 was returned in Oct. 2024, and nothing is remaining now

8. Briefly describe the goals of your project. * 🖫

This project was for adding plants in the planters at ground level on the roof of the Literatures, Cultures, and Linguistics Building (which was previously named the Foreign Languages Building). It was suggested by students, and they originally planned to grow and plant the native plants themselves. When that didn't work, the scope change allowed the planters to be filled with LiveRoof

- 9. Did you complete your project as it was outlined in the original award letter or in a subsequent approved scope change? * 🖫
 - Yes, the project was completed as originally outlined.
 - No, the project was not completed as originally outlined.
- 10. On what date did you consider the project finished or that you stopped working on it? * _____

Summer 2024

11. Describe, in detail, the challenges / obstacles your project faced. * 🖫

The plants that students originally grew in 2021 did not live. The Campus Landscape Architect worked with F&S Grounds, and the LCLB facility manager to complete this project, using LiveRoof plants.

The scope change assumed there was only \$10k provided by the SSC. That was an error, which is why nearly \$10k was returned from the original award of \$20k.

12. Describe, in detail, the successes your project experienced. * 🖫

The project was ultimately completed. Also, students were the leaders for selecting the original plants, and growing them in a campus greenhouse. The list of plants that they selected is attached as "FLB Garden Chosen Plants.xlsx"

13. Describe, in detail, how your implemented project addressed sustainability. ★ □

Additional green space on campus is good for mental health and biodiversity.

14. Describe, in detail, how your project integrated student involvement and community outreach. * 📺

The original work was done entirely by students. Once those students graduated and some of the plants did not survive, the students approved shifting to the LiveRoof system. The student group was encouraged to support weed control in the garden areas.

^{15.} Describe how the project engaged individuals from underrepresented groups and/or how it promoted diversity, equity, and inclusion.

* [10)

The student leaders and the F&S project manager have left campus, and I do not have this information.

^{16.} What key takeaways should the campus community know about your project? * 🖫

The LiveRoof green roof system does well in various locations on campus.

17. Describe the marketing material developed for promotion of your project, including but not limited to advertising (including digital) and/or signage related to this project. All marketing must include SSC's logo and/or a statement of which fee funded the project. Projects must coordinate with SSC to ensure the promotion appropriately highlights the SSC's contributions to the project. *

The only marketing I am aware of is the iCAP Portal information.

- ^{18.} Upload project marketing and/or media not previously submitted in semester progress reports. (Non-anonymous question①)
 - * 🗀

 - IMG_3951_Morgan White.jpg

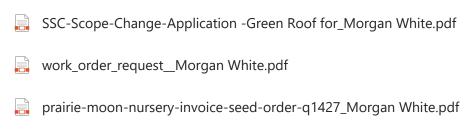

19. Complete and upload the semester financial documentation for your project. You should reflect all expenditures since your last semester project report. We strongly suggest that you also upload supporting financial transaction reports from Banner for your award's CFOP. Talk to your project's financial advisor for more information on generating this report.
