Phil,

It was nice meeting you today. I look forward to working with you on this project. Please see the link below for the Solarbridge submittal. Please let me know if you have any questions regarding this information.

Jacob,

I would like to know if there is a possibility of ordering these components now (upon receipt of approved submittal) and having the ability to bill for this (stored material). We would like the ability to realize some of the revenue in 2014.

Thanks,
