Student Sustainability Committee

Re: Request for funding from the UIUC Sustainability / Clean Energy Technology Fees
Project: Bike Parking and Hazelwood Path Improvements
Applicant: Morgan Johnston

Dear Morgan:

On behalf of the Student Sustainability Committee for the University of Illinois at Urbana-Champaign, I would like to thank you for responding to our call for proposals to use funds raised by the student Clean Energy Technology and Sustainability Fees to implement a project that improves the sustainability of our campus. Each proposal was evaluated based on its sustainability impact (i.e. energy or sustainability impact, campus presence, project longevity, and budget) and broader impact (i.e. education and creativity).

The Committee is pleased to inform you that we are recommending to the Office of Sustainability that your project (to increase the availability of secure bike parking on campus and improve the Hazelwood bike path) **receive \$36,000 in funding, with the following requirements:** 1) that \$20,000 will be used to install bike loops on existing concrete or mulch in locations determined by student responses to a campus wide bike survey and approved by the Committee (to be submitted for approval by July 9th, 2010), 2) That one location on mulch be piloted, 3) That \$1,500 be used to install an air pump at the Campus Bike Project at Pennsylvania Avenue, 4) That \$9,500 be used to provide parking specifically at the Illini Union on permeable concrete (at least 20-25 bike loops) and install an air pump; up to \$1,500 of this allocation may be used for the pump 5) That signage for Illini Union parking improvement be approved by the Committee before installation, 6) That all bicycle loops installed bear a decal indicating the Committee's support of the project, 7) That \$5,000 be used for improvements to the bicycle path along Hazelwood Drive, to remove obstacles and install a bicycle crossing at Lincoln Avenue, as well as to install additional signage to increase awareness of the bicycle/foot trail and acknowledge the Committee's support of the endeavor, 8) That the possibility of adding the trail to the campus map, campus bicycle plan, etc to further increase awareness of the path be investigated, and 9) That all funds provided by the SSC for be expended by September 30th, 2010 and that a final report of all work completed and accounting of funds spent be provided to us by November 15th, 2011. If you have any questions regarding these requirements, please contact us at sustainability-committee@uiuc.edu

The Committee will contact you when the Office of Sustainability officially approves this project. At that point, we will discuss the Committee's protocol for financial and progress management to complete this project, and make arrangements for transfer of funds. As previously discussed, semesterly updates and account statements describing how funds are being used will be required in addition to a final report on project completion.

Again, thank you for your interest in improving the sustainability of the University of Illinois at Urbana-Champaign. We look forward to working with you in the future.

Sincerely,

Suhail F. Barot
UIUC Student Sustainability Committee, Chair
