Project Information

Project: Classroom LED Upgrades

Funding Source: Cleaner Energy Technologies Fee

Funding Amount: \$29,500

Receiving Campus Unit: Facilities & Services

Unit Financial Contact: Doris Reeser

E-mail: dreeser@illinois.edu

Project Description:

This project upgrades general assignment classroom lighting campus-wide. While Facilities & Services covers the cost to replace lamps that are part of the general illumination, any lights that are used for chalkboards/marker boards, supplemental lighting during slide shows, etc. are excluded. The existing lamps in these fixtures are typically incandescent, which burnout quickly and are energy inefficient. When completed, this project provides new fixture-compatible LED lamps in all general assignment classrooms across campus, reducing electricity costs, improving board visibility, and improving student learning environments.

This proposal directly funds:

1. Labor costs
2. LED lightbulbs
