

iWG Assessment

SWATeam Recommendation Ref #: Trans008 Mode Share Survey

Date of iWG Assessment Started: 05/10/2018

Assessment Completed: 08/27/2018

Original SWATeam Recommendation: iSEE should facilitate and fund, if any funds required, an updated University District transportation mode-share study. The previous circulation study was conducted by the transportation group in the Regional Planning Commission (RPC), CUUATS. This was conducted in 2011. This recommendation is for the Transportation SWATeam to create survey questions and, with the help of iSEE, distribute the survey across campus.

iWG Assessment of budget and policy impacts (*check one*):

moderate budget and/or policy impact OR major budget and/or policy implications

iWG Routing Need (*check one*):

more detailed study OR transmit recommendation OR forward to Sustainability Council

iWG Routing Direction (*department name, SWATeam, or Council*): Evan Delucia, iSEE

iWG Recommendation: iSEE should create and administer a mode-share survey, with recurring on a regular basis. For example, every other year or as often as the Big 10 averages.

Individual comments are required from each iWG member (can be brief, if member fully agrees):

iWG Member Name	iWG Member's Comments
Ximing Cai (iSEE)	I support this recommendation, which will be helpful for the further work of SWATeam Transportation.
Morgan White (F&S)	We support this recommendation.
Larry Uphoff (Student Affairs)	I support this recommendation with the expectation that early drafts be shared with the parking advisory committee for feedback and recommendations.
Matthew Tomaszewski (Provost's Office)	I support this recommendation
Scott Willenbrock (Provost Fellow)	I support this recommendation.
John Dallesasse (Academic Senate)	I support conducting a study to understand impact. Any impact on the core missions of the University should be considered prior to implementation.
Nick Heyek (Student Sustainability Committee)	I support this recommendation
Sean Reeder (OBFS)	I support this recommendation.

Rob Fritz (college-level facility manager)	I support this recommendation
Joey Kreiling (Student Sustainability Leadership Council)	SSLC supports this recommendation; updated transportation data is necessary to maintaining proper and sustainable transportation.

Attach any comments from subject matter experts (with names and roles).

Comment from past SSLC co-chair Matt Moy:

I support this recommendation, particularly to gauge the participation in the new dockless bike-share system now in place.
