Product Description

Description

Exposed, quiet diaphragm-type, chrome plated flushometer valve with a polished exterior. The valve is ADA compliant with a non-hold open and no leak dual flush handle feature. Lifting the handle up initiates a reduced flush of 30% savings for the evacuation of liquid waste. Pushing the handle down actuates a full flush for solid waste. A wall plate is furnished with graphics and instructions for user operations. The valve incorporates the AquaVantage® TPE, chloramine resistant, dual seal diaphragm with a clog resistant, triple filtered by-pass. The valve also includes a high back pressure vacuum breaker, one piece hex coupling nut, adjustable tailpiece, spud coupling and flange for top spud connection. The control stop has internal siphon-guard protection, vandal resistant stop cap, sweat solder kit, and a cast wall flange with set screw. All seals and gaskets are made of chloramine resistant materials.

Manufacturer Info

Zurn manufactures one of the largest plumbing products packages in the world. This wide variety of products and its commitment to quality make Zurn a leading manufacturer of plumbing products and accessories.
