Hey there Mailyln

My name is Matt Turino, I manage the SSF and we would love for you all to keep your bees at the farm, in fact we have an unused hive that I would love to get going, and I don't have the training to do bee keeping, if you all could help teach us how to keep bees ourselves that would be super awesome as well! We also have a farm stand if you wanted to sell honey through us to help support your club we could probably figure something out with that to! Anyhow I would be able to meet with you in the next few weeks if you are available.

Thanks

Matt
