## **Original SWATeam Recommendation:**

The PWR SWATeam kindly requests that the following four improvements be made in the iBUY shopping dashboard.

- Prioritize sustainable products (e.g. office paper, cleaning products) in the catalogue.
- Prioritize sustainable and smart electronics (e.g. computers, monitors, TV's, etc), that are certified as energy-efficient (Energy Star and EPEAT (Electronic Product Environmental Assessment Tool), rated computers and electronics to reduce energy consumption).
- Develop a more logical search mechanism for the website so sustainable products are found quicker and prioritized.
- Simplify “punchout vendor” catalogs and make them emphasize sustainable products.
