Subject: Next steps for SmartWay

Hi everyone,

Thank you to those who were able to join the SmartWay call on Friday. Here's a recap of our plans for the rest of you, as well as the SWATeam and iWG.

- 1) I will work with Aaron Finder at Purchasing to explore the options of signing up as a SmartWay Affiliate for the whole campus. F&S and the Union will assist with promoting it to freight companies and vendors we are in contact with, through existing communication methods.
 - 2) Dining Services will continue to report their major freight mileage annually, as a SmartWay Shipper. They are willing to help other departments if someone is interested in becoming a registered SmartWay Shipper.
 - 3) If we aren't able to get the campus to sign on as an affiliate, then individual departments within F&S and the Union will seek to join at the department level. We can also ask iSEE to join.
 - 4) Any department on campus interested in tracking their freight emissions can join directly as a SmartWay Shipper. The EPA contact is Joe McCarthy, and he is available to assist.
-

Please feel free to send any questions or corrections to the folks copied here.

Thanks,
Morgan
