Subject: Chevy fund / boiler project

Dear Helen,

I hope all is well.

I'm writing to request that we dig a little deeper into the chevy funds to support the boiler project.

Al and I had agreed earlier that \$170k of the Chevy funds would be allocated to the biomass boiler, which would have been the last piece of funding if our proposal to the Illinois Clean Energy Community Foundation were fully funded. ICECF funded all but \$30k of the project costs (work in the greenhouse which they thought was outside their mission), so the project is now \$30k short of full funding. Would you be comfortable increasing the commitment from the Chevy funds from \$170k to \$200k?

Cheers,

Evan
