**Subject:** Fwd: Retirement Language for BPTN RFP

Hi folks,

The language below will be in the RFP response that SN submits on behalf of the participating schools, reflecting the UIUC "retirement for the good of the planet" goal. With this statement included, F&S confirms approval for the Chevy funds to go toward the Second Nature Purchase Order, as planned.

Thanks,  
Morgan

**Subject:** Retirement Language for BPTN RFP

Hello Morgan,

We would suggest changing the note about UIUC's requirement to have net positive environmental impact to say:

Note: one campus prefers to attain a carbon reduction goal in the near term; to do so they prefer retirement of their credits by the purchaser or may buy and sell credits to reach their reduction targets (relates to 2014 vintage and 40-50k VCU in 2015)

Let me know what you think.

Thanks,  
-Brett
