

Minutes from iCAP Hierarchy Meeting

Tuesday, July 6th, 2021

Morgan White, Meredith Moore, Sarthak Prasad, Avery Maloto

Outstanding Questions, Ideas, and Additional Comments:

- Is conservation the same as efficiency? Or do we need to say “Energy Efficiency and Conservation Efforts”?
 - Sarthak: “One word is Enough”
- Carbon-Neutral Energy for Campus = All good, no changes needed!
- Energy Conservation Efforts needs to be cleaned up
 - Should be organized the way that the book is organized now
- LEED =/= Space
 - Improving the space utilization would be under “Make buildings more energy efficient”, or Objective 2.2 and 2.2.1.
 - Meredith: “LEED Certification can be moved under Building-Level Energy Efficiency?”
- What if we say the conservation topics as “Help building produce energy..”
 - Meredith: “I like bullet points as actions, but + drop down headers as nouns”
- Change Energy’s description?
- LED Campus
 - Separate projects between building-level and centralized
 - Create subcategories within “Building-Level Energy Efficiency” And “Centralized Energy Efficiency” to file the projects under
- Landing Pages? <https://drawdown.org/solutions>
- Change/Update outdated Language:
 - “Campus is in the process of...” in _____ [[missed the project]]
 - “Now...” in Vending Machines
- How do you rearrange things in the list (ex: Retrocommissioning at the top)?
 - Michael has the ability to organize these, but Sarthak does not.
 - I think Morgan figured out how to do this with the “Weight” drop-down in edit mode.

Tracked Changes:

- Moved under **Building-Level Energy Efficiency**
 - ECE Net-Zero Energy Buildings
 - Convert Fume Hoods from CAV TO VAV (Could also be filed under centralized)
 - Reduce Active Fume Hoods (Could also be filed under centralized)
 - LEED Certification (This is very building specific, while other projects are more large scale -Meredith)
 - Weatherization of Small Campus buildings
 - Plant Sciences Window Shades
 - Building Maintenance Department Energy Conservation Projects
- Moved to **Net Zero Growth**

- Space Marketplace
- Moved to **Centralized Energy Efficiency**
 - Energy Use Policy
- Specifically from “LED Campus”
 - Moved to **Centralized Energy Efficiency**
 - Vending Machines
 - Occupancy and Daylight Sensors (and related to Lighting Conservation Projects)
 - Moved to **Building-Level Energy Efficiency**
 - Vending Machines
 - Occupancy and Daylight Sensors (and related to Lighting Conservation Projects)
 - Lighting Conservation Projects
 - Language was changed in “Lighting Conservation Efforts”
- “Maintain or Reduce Gross Square Footage” changed to “Improve Space Utilization”
- “Explore Options for 100% Clean Campus Energy” was changed to “Ongoing”
