How to Find Joy in Climate Action | TED

Dr. Ayana Elizabeth Johnson

<https://www.youtube.com/watch?v=VsOJR40M0as>

Climate action:

“Live at the heart of this Venn diagram for as many minutes as you can each day”

<https://www.ayanaelizabeth.com/climatevenn>

What work **needs** to be done?

- Eliminate greenhouse gas emissions from electricity, transportation, industry, agriculture & buildings
- Protect and restore ecosystems
- Transformation: Change society, policy, economy & culture
- Systems-level changes that can be replicated or scaled up
- Contribute to an existing effort

What are your **special talents** or super powers?

Skills, resources, networks...

What brings you **joy** or satisfaction?

How can we make climate action a **leaderful** movement?

How can you help **others** to use their talents?

What can **we** do together to help address the climate crisis?

What are the **societal barriers** that prevent people from fully devoting themselves to climate solutions?

What is **one** thing you will enjoy doing for the climate after you leave here today?
