

WEEKLY REPORTS

Cycle: *Week 2 - Feb 5-11, 2023* | Year: *2023* | Status: *Verified*

Member Name: *University of Illinois Urbana-Champaign*

Will you be reporting the amount your school recycled this week as a single commingled number, or as 3 source separated numbers (Paper, Corrugated Cardboard, Bottles & Cans)?

Commingled **Source Separated**

Will you be reporting a number for Trash?

Yes **No**

Will you be reporting a number for food organics?

Yes **No**

This data is necessary to be included in the Diversion or Waste Minimization results.

MATERIAL	WEIGHT	UNIT	POUNDS
Commingled/Mixed Recyclables	89,480	Pounds	89,480.0

Is this a place-holding number?

Yes **No**

Please estimate amount of plastic materials being recycled (average volume per week based on a visual inspection). This data will be used for sharing overall impact to keep plastics out of the landfill; this data will not be shared via a RecycleMania results report by campus

20-30%

MATERIAL	WEIGHT	UNIT	POUNDS
Trash	304,240	Pounds	304,240.0

Is this a place-holding number?

Yes **No**

Is there significant change or other noteworthy item about this weeks numbers? Leave a notes for administrators.

Does the data provided above represent all sources of this material(s) generated across the entire institution for the full week?

- Yes, complete weights for all materials
- Mixed - complete for certain materials, not for others
- No
- Not sure

If you said Mixed, No or Not sure, please explain what weights are missing.
