How to add your RSO's events to the shared calendar

In gCal, **invite** the SSLC shared calendar to your event!

(This works for recurring events!)

The screenshot shows the Google Calendar 'Create Event' interface. At the top, the event title is 'Red Bison's super cool event' with a 'Save' button and a 'More actions' dropdown. The date and time are set to 'Sep 5, 2023' from '6:30pm' to '7:30pm' in '(GMT-05:00) Central Time - Chicago'. There are checkboxes for 'All day' and 'Does not repeat'. Below this, there are tabs for 'Event Details' and 'Find a Time'. The 'Event Details' tab is active, showing options to 'Add Google Meet video conferencing', 'Add location', 'Add notification', and a calendar selection dropdown currently set to 'Red Bison Events'. There are also dropdowns for 'Busy' and 'Default visibility'. The 'Guests' tab is also visible, showing a search bar with 'sslc' entered and a dropdown menu with 'SSLC Shared RSO calendar' selected. Below the search bar, there are checkboxes for 'Modify event', 'Invite others', and 'See guest list'. At the bottom, there is a text area for 'Add description' with a rich text editor toolbar.
