 - We have a workshop coming up on Feb 21 Machine Learning Applications for Air Quality, which we are co-hosting with CEE Dept and NASA. Technically the registration deadline has passed but if anyone is really interested they can reach out to me.
 - We will again do an exhibit at Engineering Open House. We will definitely need volunteers. Our exhibit, "Care for the Air" involves hands-on demonstrations of concepts like smog, real-time air pollution, and filtration to improve indoor air quality. It's a lot of fun and we even won a few awards last year including Distinguished Environmental and Sustainability efforts. We especially need volunteers for Saturday. If anyone is interested please send me an email!"
 -
- SSC
 - Attending meetings is on the calendar!
 - Sustainable crochet event feb 15th
