

Education iCAP Team February Meeting Agenda

Meeting notes are blue; action items are highlighted

Thursday, February 8th

1:00- 2:00 PM; Teams Meeting

Attendees: Eric Green, Megan Hanebuth, Anna Mehl, Katie Jaszcurowski, Grace Smith

1) Sustainability Gen-Ed

- a. Eric met with the Gen-ed board chair last semester to provide an overview of the sustainability gen-ed proposal.
 - i. The feedback was not great. The primary issue is that there may not be enough classes (only about 30) available to offer for the gen-ed.
 - ii. They also said there needs to be a distinguishable difference between classes that fulfill life and physical sciences gen-ed and sustainability gen-ed. We need a distinguishable feature.
 - iii. Letters of support from faculty and academic research would support our proposal.
- b. Eric is going to update the proposal with the feedback from the gen-ed board and send it out to the iCAP Education team before the next meeting so we can review it.

2) Sustainability literacy assessment

- a. **Review questions**
 - i. We discussed the questions on the sustainability literacy assessment draft and updates were made on the document (found in Literacy Assessment Box folder).
- b. **Rolling out literacy assessment to first year students (Update from Gretchen on what it takes to get the assessment mandated)**
