ESG Services — CSG is one of the largest marketers and providers of RECs and Carbon Offsets in the U.S., serving large C&I and utility customers. CSG has contracts in place with virtually all LSEs (Load Serving Entities) and has transacted in excess of 150 Million MWh's over the past 5 years. CSG participates in all voluntary and compliance markets in the U.S, and is quickly growing its portfolio of I-RECS to service multinational companies.

Environmental Attributes

North American Renewable Energy Certificates (RECs)

- All US states

International Renewable Energy Certificates (I-RECs)
