

JOIN US!

for the second Technical
Advisory Committee Meeting

to discuss Urbana's Stormwater Asset Management Plan

about:

After our first meeting in March, the City of Urbana hosted a public meeting to share project information and launched a survey to gather feedback on **increasing the stormwater utility fee in 2024** to ensure proper maintenance and improve resilience. The City also shared information through multiple interviews with the media, postcards sent to residents and businesses, booths at local events, and much more.

At the upcoming Technical Advisory Committee meeting, the project team will provide an update on project developments and public feedback. Input from this meeting will help inform the recommended program and rate increase presented to Council later in August.

when:

Thursday, August 3, 2023
1:00 PM to 2:30 PM

City of Urbana
City Hall - Council Chambers
400 South Vine St
Urbana, IL 61801

agenda:

ON THE AGENDA:

- + Project Recap
- + Activities to Date
- + Public Feedback
- + Updated Stormwater Program Costs
- + Recommended Program & Rate Increase
- + Next Steps
