9. Describe, in detail, what has been completed on the project since the last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

There has not been much progress. The project lead is operating completely solo and their time is generally allocated to SporeCycle, a project of theirs. They have laid the foundation to move equipment into the space at the SSF, but have not been able to move equipment or set up, as they don't have a car and the SSF is far from them. They no longer have the space to host a working greenhouse tent in their apartment either so they haven't been able to grow at scale there. Overall, there has been no progress outside of a research paper and statistical results analysis the project lead has conducted for SporeCycle.

10. Describe, in detail, the project's challenges/obstacles since your last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

Since the project lead is working individually, it has been very difficult to operate the project among other commitments. Location of SSF is also rather far from the Project Lead's residence.

11. Describe, in detail, the project's successes since your last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

Have purchased all materials, and have confirmation from all involved parties that they would be willing to participate! This includes the Sustainable Student Farm and Jubilee Community Kitchen. Project Lead transfer was successful.

12. Did your project have any changes to its team that SSC should know about (e.g., project lead, faculty/staff advisor, departmental financial contact)? *

NOTE: If yes, please complete the SSC Project Contact Information Change Form located at this link: <https://forms.office.com/r/uBjx9nmNpG>
