   This semester we have a total of four events. And here is a total sum from this semester:
   Total Light Bulbs: 10,052
   Energy Saved: 17,339.7 kWh
   CO2 Emissions Saved: 15.463 metric tons
   Money Saved: $1,195.94
   Total Student Volunteers: 691
   Gasoline Consumption Prevented: 1,740 gallons
   It's been an impactful semester, and I'm excited about the progress we've made!

8. Describe, in detail, the project's challenges/obstacles since your last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

   One of the biggest challenges this semester has been the increased number of volunteer sign-ups, which is great. However, we unfortunately don't have enough buildings available to assign to students for building shutdowns. Additionally, we've encountered issues where students have reported that their assigned building was locked, even though the F&S 24-25 building hours indicate it should be open. This has been frustrating, as we can only offer a limited number of buildings that are open past 6 p.m. on Fridays.

9. Describe, in detail, the project's successes since your last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

   One of the biggest successes this semester has been the number of volunteers we've had sign up. Looking ahead to next semester, we plan to limit volunteer sign-ups to 200 to ensure that every student has the opportunity to fully participate and contribute.

10. Complete and upload the semester financial documentation for your project. You should reflect all expenditures since your last semester project report. We strongly suggest that you also upload supporting financial documentation from Banner for your award CFOP. NOTE: When your project is completed and/or expired (whichever comes first), any remaining project funds will be transferred back to the SSC.
