Time to complete

Project Questionnaire

Please provide proper and accurate information.

1. Name of project *

Illini Lights Out

2. Date project received financial award letter *

October 13th, 2023

3. Date of forecasted project completion *

N/A. When all lights on campus are automatic or sensor

4. Date of report submission *

1/18/2024. Fall 2023

5. Marketing and promotion efforts to date *

Instagram promotion, asking fellow teachers to promote it before class periods, and the iSEE newsletter.

6. Please describe project progress *

In Fall 2024, thanks to our 816 volunteers, we flipped 28,341 bulbs, saving as much as 48,889 kWh, \$4,312, and 34.4 metric tons of GHG!

7. Please describe how your project integrates student involvement and community outreach *

Illini Lights Out directly teaches teamwork and how numbers can help us accomplish big things. Illini Lights out solely runs on volunteers. It also teaches about the importance of volunteering while also gaining a feeling of "doing good" for your community. With a quick speech at the beginning of every event, we emphasize environmental stewardship and why saving energy is important and easy! In this speech, we also teach students to tell apart different types of light fixtures which is a good life skill to have. On the leadership side of this, ILO is a fully student run project by iSEE interns. It teaches the lead intern to plan and execute events while other interns help out!

Project Documentation

8. Please upload updated financial documentation for your project

<https://studentengagement.illinois.edu/student-sustainability/ssc/docs/SSC-Supplemental-Budget-Timeline.xlsx> *
