

Funding Award and Acceptance Letter

May 21, 2022

Project: **Reducing Water Waste in Talbot Laboratory**

Dear **Joshua L. Rovey**,

On behalf of the University of Illinois at Urbana-Champaign Student Sustainability Committee (SSC), we would like to thank you for initiating a project that improves the sustainability of our campus. SSC is pleased to inform you that your project will receive **\$80,000.00** in grant funding.

In order to remain eligible for this award, you must agree to the following conditions:

1. The project must be completed within two years. A final report of all work completed should be provided to the SSC Assistant Director by **May 21, 2024**.
2. Project status updates and detailed account statements must be provided at the end of each semester, in the method requested, until the project is completed.
3. The Contact Person will be individually responsible for all official communication and the execution of this agreement.
4. The awardee will take the appropriate steps to create a CFOP with OBFS UAFR University Accounting Services. The CFOP provided for this award shall strictly be used for the money awarded in this proposal.
5. Any substantial modifications to project scope, budget, or timeline must first be approved by SSC. These requests must be submitted in a formal letter to the Chair and the Assistant Director.
6. All projects will be expected to follow campus policies and procedures as well as any applicable State and Federal laws.
7. SSC reserves the right to revoke funding if the project does not comply with the terms and conditions outlined in this letter.
8. Any press releases or educational/promotional materials involving the project should acknowledge SSC funding.
9. Any signage involving the project or events surrounding this project should include SSC's logo and/or a statement of which fee funded the project. Projects must coordinate with SSC to ensure promotion appropriately highlights the SSC's contributions to the project.

If you agree to the terms and conditions for the funding, please sign on the designated line at the bottom of this letter. If you have any questions regarding these requirements please contact the SSC, at sustainability-committee@illinois.edu. You will be notified when the Institute for Sustainability, Energy, and Environment and Vice Chancellor for Student Affairs officially approves this project. Again, thank you for your interest in improving the sustainability of the University of Illinois at Urbana-Champaign. We look forward to working with you in the future.

Project: Reducing Water Waste in Talbot Laboratory

Funding Source:

☐ Cleaner Energy Technologies Fee (302571)

☒ Sustainable Campus Environment Fee (303692)

Funding Amount: \$80,000.00

Receiving Campus Unit: Aerospace Engineering

Unit Financial Contact: Andrea N. Vogel

E-mail: andavis@illinois.edu

Project Description:

The EPLab in Talbot Laboratory Building was established in 1989. Major equipment in this laboratory consists of rough vacuum pumps and compressors for high vacuum pumps, all of which require cooling water. At the time of original installation, creation, and setup of this laboratory, equipment was connected to water from the Urbana city water connection and disposed of in an open drain. New and upgraded equipment added to the laboratory continues to use this water connection and disposal method. A recent (2021) audit of water usage in Talbot Laboratory found that this space uses on average \$1900/mo in Urbana city water, which equates to approximately 317,000 gallons/mo. This is almost half of the average monthly water use for the entire Talbot building (734 kgal/mo).

This proposal directly funds:

- F&S Formal Quote: \$1,500.00
- F&S Costs to Connect to Building Chilled Water: \$78,500.00
