Time to complete

## 1. Project Name: \*

Restoration of Lincoln Avenue Residence Hall's Native Plant Gardens

## 2. Semester or date of project's original submission. \*

Spring Semester 2023

## 3. Below please include a brief project summary and your requested changes. \*

The purpose of this project is to restore and upgrade the native plant gardens around the Lincoln Avenue Residence Hall. It also contributes to the goals set forth in the 2020 iCAP and the 2019 Campus Resilient Landscape Strategy by providing multi-functional spaces that will contribute to campus wellbeing, student learning opportunities, plant biodiversity, and habitat for pollinators & wildlife.

We have now purchased & installed all the plants included in the original grant request, but there have been some mortalities and there are some spaces that still need to be filled in with plants. I am requesting to use leftover funds (originally requested for mulch etc) so we can purchase plants for students to plant to replace mortalities and fill in spaces that aren't full of plants yet. We (Housing Dept & Myself) would also like to install permanent signage at the LAR Entrance to teach visitors about the gardens as a student project and the native plants we used (with acknowledgment to SSC grant funds).

## 4. Date of Scope Change Submission \*

May 21, 2024

## 5. Type of Scope Change: \*

- Project Direction
- Budget
- Timeline
- Project Advisor/Financial contact
- Project Lead

## 6. Please provide a detailed description of the requested budget change, increase, decrease or returned funds. \*

I am requesting to use leftover funds (originally requested for mulch etc in the grant application) so we can purchase plants for students to plant this fall & next spring to replace mortalities and fill in spaces that aren't full of plants yet. (We were able to get mulch for free from the Grounds Dept instead of paying for it.) We (Housing Dept & Myself) would also like to install permanent signage at the LAR Entrance to teach visitors about the gardens as a student project and the native plants we used (with acknowledgment to SSC grant funds). See attached budget for details & cost estimates for the above.

## 7. Please upload your updated Supplemental Budget and Timeline spreadsheet here

Fill out the detailed expenditures Excel sheet, and submit it below.
