Project Questionnaire

Please provide proper and accurate information.

1. Name of project *

| Eco Illini Tools and Outreach Events |

2. Date project received financial award letter *

| 2/17/23 |

3. Date of forecasted project completion *

| 5/1/24 |

4. Date of report submission *

| 2/7/24 |

5. Marketing and promotion efforts to date *

> We have participated in Green Quad Day, Quad Day, Engineering Open House, E-Night, Robot Day, Homecoming Parade, and our national competition. These events have all allowed us to represent the University and the support of SSC in order to show the progressive that is being made by student in sustainable transportation.

6. Please describe project progress *

> Although the funding was awarded in February 2023, we were not able to use the funds until Fall 2023, but we have been able to use over half of the funds to allow us to expand abilities with various different tools. These tools have allowed us to speed up the process in developing 3 generations of vehicles: G6, G6Max, and G5e. We will also continue to purchase tools for outreach events as well to create a better experience for the campus and off-campus communities.

7. Please describe how your project integrates student involvement and community outreach *

> All the students using these tools to work on our projects have gained real-world engineering experience. These tools have provided every student with the opportunity to learn how to use them to take on challenging problems outside of the classroom. Beyond that, students have also been inspired by the challenge of efficiency and sustainability, which will stay with them for their entire career. Furthurmore, with the extra efforts in outreach on campus, Eco Illini has been able to serve as a larger entry point into sustainable engineering for many students. We are able to use this to inspire these students to consider sustainable mindsets regardless of what they pursue later in their career.

Project Documentation

8. Please upload updated financial documentation for your project
