

STUDENT SUSTAINABILITY COMMITTEE

Funding Application – Student-Led Projects (Under \$10K)

Funding Criteria

A. General Rules

1. Students, faculty, and staff are encouraged to submit requests for funding. Student-led projects require a faculty or staff sponsor in order to have funds awarded.
2. Funding can only go to university-affiliated projects from students, faculty, staff, and departments.
3. All SSC projects must make a substantial impact on students. This may be a direct impact or an impact through education and engagement. All SSC funding is 100% from student green fees, so the projects funded by the students must benefit them.
4. SSC encourages innovation and new technologies – creative projects are encouraged to apply.
5. Unless a type of expense is specifically listed below as having restrictions, SSC can generally fund it. The items referenced below should not be taken as comprehensive list.

B. Things SSC Can Fund, On A Case-By-Case Basis

1. SSC can fund feasibility studies and design work; however, it must work toward ultimately addressing a sustainability need on campus.
2. SSC can fund staff positions that are related to improving campus sustainability. Strong preference will be given to proposals receiving matching funding from departments and/or plans for maintaining continuity of the position after the end of the initial grant.
3. SSC can fund outreach events with a central theme of sustainability, provided their primary audience is the general campus community.
4. SSC discourages funding requests for food and prizes but will consider proposals on a case by case basis that prove significant reasoning.
5. SSC can fund repairs and improvements to existing building systems as long as it works toward the goal of improving campus sustainability; however, a preference is shown to projects utilizing new or innovative ideas.
6. SSC can provide departments with loans for projects with a distinct payback on a case by case base. Loans will require a separate memorandum of understanding between SSC and departmental leadership pledging to repay the award in full and detailing the payback plan.

C. Things SSC Will Not Fund:

1. SSC will not fund projects with a primary end goal of generating revenue for non-University entities.
2. SSC will not fund personal lodging, food, beverage, and other travel expenses.
3. SSC will not fund any travel expenses.
4. SSC will not fund tuition or other forms of personal financial assistance for students beyond standard student employee wages.

Your funding application should include this application and any letters of support.

Please submit this completed application and any relevant supporting documentation by the deadline listed on the SSC website to Sustainability-Committee@Illinois.edu. The Working Group Chairs will be in contact with you regarding any questions about the application. If you have any questions about the application process, please contact the Student Sustainability Committee at Sustainability-Committee@illinois.edu.

General & Contact Information

Project Name: Ecofeminism Summit

Total Amount Requested from SSC: \$9,999

Project Topic Areas: Land & Water Education Energy
 Transportation Food & Waste

Applicant Name: Sara Swanberg

Campus Affiliation (Unit/Department or RSO/Organization): iSEE

Email Address: sarajs4@illinois.edu

Check one:

- This project is solely my own **OR**
 This project is proposed on behalf of (name of student org., campus dept., etc.): iSEE

Project Team Members

Name	Department	Email
Sara Swanberg	iSEE	sarajs4@illinois.edu
Eric Green	iSEE	ewgreen@illinois.edu
Kasey Umland	Women’s Resource Center	umland@illinois.edu
Name	Department/Organization	Email Address

Student-Led Projects (Mandatory):

Name of Faculty or Staff Project Advisor: Eric Green

Advisor’s Email Address: ewgreen@illinois.edu

Financial Contact (Must be a full-time University of Illinois staff member)

Contact Name: Amy Rosenbery (purchasing) and John Pirtle (account setup)

Unit/Department: Institute for Sustainability, Energy, and Environment

Email Address: husted@illinois.edu and jpirt2@illinois.edu

Project Information

Please review the proposal materials and online content carefully. It is highly recommended you visit a working group meeting sometime during the proposal submission process.

Please provide a brief background of the project, its goals, and the desired outcomes:

We want to know: What is your project? What does it concretely produce, accomplish, or solve? Why is this project needed on campus?

The Ecofeminism Summit 2022 offers a month-long series of programs designed to connect social justice, environmental justice, and feminist theory. Keynote lectures, workshops, film screening, and lectures will provide students with unique opportunities to further explore ecofeminist theory and praxis.

Where will the project be located? Are special permissions required for this project site?

If special permission is required for this location, please explain and submit any relevant letters of support with the application. SSC cannot fund projects without prior location approval.

The events will be hosted on campus. Tentatively, the events will be hosted at the Women's Resource Center, but we are currently exploring larger campus spaces as well for the keynote speakers specifically.

Other than the project team, who will have a stake in the project? Please list other individuals, groups, or departments affiliated directly or indirectly by the project. This includes any entity providing funding (immediate, future, ongoing, matching, in-kind, etc.) and any entities that benefit from this project.

Please attach letters of commitment or support at the end of the application.

I have been in contact with SECS, SWE, and WGGP and they have all demonstrated interest in participating in and/or assisting in any way. We would like to work with one of these RSOs to apply for SORF funding.

How will this project involve and/or benefit students?

This includes both direct and indirect impact.

Students across campus will be invited to attend the Ecofeminism Summit. This event is meant to spread awareness and knowledge of the intersectionality of environmentalism and feminism while inspiring students to action. Women play a unique role when it comes to environmental justice, so it is important to shed light on it. Our keynote speakers will inspire the students, the lectures, for example on Period Justice, will educate students, the workshops/film screens will allow students to have productive discussions about the content they are digesting.

What are your specific outreach goals? How will this project inspire change at UIUC?

The last time an Ecofeminism Summit was held on campus was 2017. Our goal is to provide ecofeminism resources not only for people who are involved in sustainability and environmental justice initiatives, but also to expand our audience beyond that. Reaching out to RSOs such as Society of Women Engineers and Women in Business let's us expand our audience and resources in order to maximize the impact of this series of events. This project will inspire change as a result of the large audience it impacts. Because of the intersectionality with feminism, this may act as an introduction to ecofeminism for many of these women-centered RSOs.

How will the project improve environmental sustainability at the Urbana-Champaign campus?

This project will help bring awareness and provide resource for students to become environmentalists and become advocates for environmental justice. For example, at the Period Justice event we are planning on giving out menstrual cups. These are a more sustainable option for feminine products that many women do not use or do not know much about. Providing resources and a safe space to discuss advocacy for period justice will help improve sustainability. Learning from our keynote speakers as well can help students make

their actions more sustainable. The keynote speakers are people who are involved in the environmental activism space and who write frequently about their experiences. The speakers provide students an opportunity to learn from them, thus improving environmental sustainability amongst campus members at the Urbana-Champaign campus.

If applicable, how does this project impact environmental injustice or social injustice?

Ecofeminism explores the intersectionality of environmentalism and feminism. This touches on both environmental injustice and social injustice and how those overlap and impact each other. Hearing from our keynote speakers more about how environmental impacts disproportionately impact women and about how women can leave their impact on the environment will be very educational for attendees.

Scope, Schedule, and Budget verification

What is the plan for project implementation? Describe the key steps of the project including the start date, target completion date, target date for submitting a final report, and any significant tasks or milestones.

Please be as detailed as possible.

The goal is for the Ecofeminism speakers to be scheduled during the month of April for Earth Month.

This project started 1/24/22 with looking for potential keynote speakers.

The top four keynote speakers will be contacted by 2/11/22.

If there is no responses, the second round of speakers will be contacted by 2/25/22.

The target completion date and approval of this application is 3/1/22.

The target submission date for the semesterly report will be 4/15/22.

The target submission date for the final report will be 5/1/22.

List all budget items for which funding is being requested. Include cost and total amount for each item requested.

Please be as detailed as possible.

Keynote Speakers x2 \$8,000

Menstrual Cups \$25 each for a quantity of 80 = ~\$1,999

If the project is implemented, will you require ongoing funding? What is the strategy for supporting the project in order to cover replacement, operation, or renewal costs?

SSC provides funding on a case by case basis and should not be considered as an ongoing source of funding

Since this is a one time series of event for the academic year, there will not be a requirement for ongoing funding.

Please include any other obtained sources of funding. Have you applied for funding elsewhere?

Please attach any relevant letters of support as needed in a separate document.

No

Have you applied for funding from SSC before? If so, for what project?

No

How will you bring awareness and publicize the project on campus? In addition to SSC, where will information about this project be reported?

We will publicize the event on social media and in email newsletters. We have already reached out to RSOs and university organizations such as SECS, SWE, and WGGP and they are all willing to help advertise our events. Information about this project will be mainly promoted through iSEE and Women's Resource Center social media platforms, and through other stakeholder outlets.
