Time to complete

1. Date of this semester progress report submission *

5/9/2025

2. Name of project exactly as it was listed in your award letter *

Soil boring database for UIUC campus

3. Date of original award letter *

2022-05-21

4. Date of expiration listed on award letter (or on scope change approval if more recent) *

2025-12-31

5. How much was your award (i.e., original award plus any approved budget increases)? *

7,500.00

6. How much of your award has been spent to date (in dollars)? *

5,851.82

7. Date of forecasted project completion *

2025-12-31

8. Have you submitted one or more semester progress reports previously? *

◉ YES

◯ NO

9. Describe, in detail, what has been completed on the project since the last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

I joined the project last semester to work for Andrew Stumpf. Since starting this semester, I have continued to make sure each soil boring report has all of the pages with boring location and information accounted for. I continued inputting soil boring locations and surface data into the online database. After this semester, I have logged over 1000 soil boring locations into our database. I will be back next semester (Fall 2025) to continue my work.

10. Describe, in detail, the project's challenges/obstacles since your last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

> One challenge we have continuously faced this semester was contacting our IT guy to troubleshoot some of the issues with the database, since we recently transferred all the data off of Oracle. Another challenge is that a good number of the reports in our files did not have all the borings or the locations they should have included, so we had to search for those. The last challenge is that the database is always expanding, so as we go on, we continuously receive new boring data from different companies and projects.

11. Describe, in detail, the project's successes since your last semester progress report (or since the project commenced if you have not yet submitted a semester progress report)? *

> Since the beginning of the semester, I have continued to go through all our recorded soil boring reports on campus and in the surrounding area and locate them, and put them in the database. I have input basic location data, for example, section, township, range, building number, and depths for each boring hole, into the newly created database.

12. Did your project have any changes to its team that SSC should know about (e.g., project lead, faculty/staff advisor, departmental financial contact)? *

NOTE: If yes, please complete the SSC Project Contact Information Change Form located at this link: https://forms.office.com/r/uBjx9nmNpG

- ○ YES

- ◉ NO

13. Complete and upload the semester financial documentation for your project. You should reflect all expenditures since your last semester project report. We strongly suggest that you also upload supporting financial documentation from Banner for your award CFOP. NOTE: When your project is completed and/or expired (whichever comes first), any remaining project funds will be transferred back to the SSC.
