### Project Questionnaire

Please provide proper and accurate information.

1. Name of project \*

Sustainability Grammys (Environmental RSO Recognition Opportunity)

2. Date project received financial award letter \*

02/28/2022

3. Date of forecasted project completion \*

06/30/2025

4. Date of report submission \*

05/10/2024

5. Marketing and promotion efforts to date \*

The Green Globes and iCAP 2025 Kickoff event was promoted by iSEE, SSLC, La Casa, and BNAACC. The application process and the event itself were advertised on the social media pages of these organizations, shared on iSEE's newsletter, and also shared on Eweek and iNews. Information was also sent out via listserv to reach all RSOs on campus and the iCAP teams. In addition, the awards application and the event were promoted at SSLC general meetings and through targeted outreach by SSLC leadership to environmental RSOs.

6. Please describe project progress \*

The Green Globes and iCAP 2025 Kickoff event was held at ECEB on April 25, 2024. Approximately 100 people were in attendance. 12 RSOs applied for awards detailing acts of sustainability they accomplished from May 2023 – April 2024 to be recognized at the event. Based on these applications, we presented RSOs awards in five categories: 1) the highest impact for sustainability, 2) the most innovative, 3) the best up and coming RSO, 4) have the highest community engagement, and 5) commitment to environmental justice. This year, SSLC partnered with iSEE to feature a discussion of sustainability efforts on campus and priorities for the Illinois Climate Action Plan 2025 during the event, providing a forum for students to voice their views and priorities for climate action on campus as well as learn what the iCAP teams have been working on.

## 7. Please describe how your project integrates student involvement and community outreach \*

Students from SSLC and iSEE Greener Campus interns led the planning of the event and conducted significant outreach to engage the student body. The Green Globes awards ceremony was facilitated by students and the purpose was to recognize student achievements in sustainability.

## Project Documentation

## 8. Please upload updated financial documentation for your project
